INFORMATION

PRICES for the current planting season are covered by this List No. 32, which cancels all former catalogs. Net f. o. b. Portland or nursery shipping station. Remittance with order unless terms are previously arranged.

LOCATION—City display and sales grounds and office, 220 Second Street, corner Salmon, phone Atwater 1927. Nurseries at Durham, Oregon Electric Railway, 11 miles south. By auto from Portland, out Sixth Street, Terwilliger Boulevard and Newberg Highway, about 8 miles to Red Rock Cheese Factory, turn to left and keep straight ahead about 3 miles. Visitors welcome at the nurseries and display grounds.

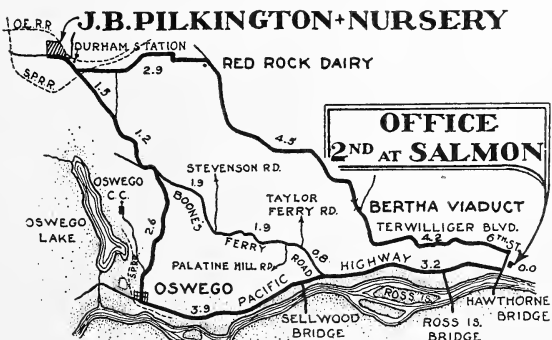

CALIFORNIA BRANCH—Demand for our hardy stock has grown to such extent that an agency branch was necessary, and we have established display and sales grounds on Main Highway, 16 miles south of San Francisco, three miles north of Burlingame, Post Office address, J. B. PILKINGTON, Nurseryman, MILLBRAE, CALIF.

A large supply of select specimen Evergreens (Conifers), Broad Leaf and Deciduous Flowering Shrubs, Shade Trees, Vines and Plants are ready at all seasons and personal inspection and selection are earnestly solicited.

PLANTING SEASON—Usually from late October to early April, right through the winter, depending of course upon weather. Early planting is advisable—at any rate, place orders early so that selections made be reserved for delivery or shipment at any time desired.

GUARANTEE—We have been in the nursery business in Portland for 45 years. All plants shall be true to name, well grown and properly dug and packed and delivered to the transportation company in good order, after which our responsibility ceases. We assume no responsibility for failure due to after conditions over which we have no control. In case any plant through error prove untrue to name, we will replace without charge or refund not more than the original purchase price.

LANDSCAPE DEPARTMENT—Fully equipped and under trained and competent management, will make complete plans and specifications for the landscape operations of small or large estates. Simple planting suggestions for home grounds are made without charge, but where landscape problems require special visits, plans, specifications and draughting, study and so on, a reasonable charge must be made, consistent with the time and services rendered. We will be glad to go fully into detail with those who are interested in this.

In center, two specimens of *Abelia Rupestris* pruned in globe form,
in background
KOSTER'S COLORADO BLUE SPRUCE

**BROAD LEAVED EVERGREEN TREES
AND SHRUBS**

The great beauty of the broad leaved evergreens, makes them most valuable for gardening purposes. Many are among our most spectacular and gorgeous flowering shrubs, while their broad, attractive leaves show out most effectively during the parts of the year when many trees and plants are without foliage. There is practically no end to the charming results that can be obtained by the liberal use of this class of plants, either as single specimens or in masses as well as both background and foreground—for the somber winter picture or the summer floral display. They generally thrive in shady or partially shaded places, giving finest foliage effects when so grown—with better flowers perhaps when grown in the sun.

Our climatic conditions in the Pacific Northwest are particularly congenial to this class of shrubbery and aid in obtaining wonderfully pleasing effects in foliage and flowers. Our Oregon State Flower, Oregon Grape (*Mahonia Aquifolium*) and the state of Washington's choice of the native *Rhododendron* prove conclusively the esteem in which they are held. My stock of these is particularly fine, home grown, thoroughly acclimated, and good results can be depended upon.

	Inches	Each
<i>Abelia Rupestris</i> , pink tinged.....	20-30	\$.75

A beautiful dark, glossy, small-leaved evergreen, medium height (3 to 5 feet), graceful spreading habit, bearing attractive clusters of little white flowers tinged pink throughout the entire summer until frost. Ideal for base or foundation planting.

Andromeda—See *Chamaedaphne* and *Pieris*.

<i>Aralia</i> , <i>Japanica</i> (<i>Fatsia</i>)—Like Rubber Plants.	sturdy	1.50

Suffructicosa, Dwarf Boxwood.....10 for \$3.00

Camellia, sturdy plants 15-18 in., \$2.00; 18-24 in., \$2.50.

Double, semi-double and single flowered types, in separate colors, Reds, Deep Pink, Light Pink, Shell Pink, Variegated and White. Order by type and color or leave to our selection.

Chamaedaphne (Andromeda)—Fetter Bush—

medium 2.00

Choisya Ternata, Mexican Orange. Small, 75c..18-24 1.50**Cotoneaster—**

As a family, they cannot be overestimated, furnishing variety of foliage and habit that makes them favorites in landscape planting. Not entirely evergreen, they are so persistent in foliage that they are commonly classed as such. All flower pinkish white in spring, but their main beauty is in the masses of red or orange red berries carried through fall and winter. Simonsii or Shining Leaf is upright, tall, orange red berries, fine for background. Franchetti is tall but graceful drooping habit, fine foliage, usually evergreen, with masses of berries. Horizontalis is very hardy, flat or creeping growth, drops its foliage but loads up with red berries making bright color spots in winter. Microphylla is more tender, but evergreen small leaves, dark and glossy, spreading drooping habit making it fine for tops of walls, banks, etc.

Adpressa, trailing, dwarf, fine for rockeries.12-15 1.00

Applanata, upright.....36-48 1.50

Franchetti, upright, graceful droopy habit..24-30 .75

Franchetti, upright.....30-42 1.00

<i>Laurustinus</i> , heavy.....	18-24	1.50

Peat Moss (Torf Mull)—Humus in available form, indispensable for mulching rose and flower beds, in rock gardens. Ask for descriptive pamphlet.

NURSERY VIEW SPECIMEN SPRUCES

PRUNING OF TREES AND SHRUBS

Deciduous trees and shrubs should be given a severe cutting-back or pruning when transplanted. More or less roots are always bruised and broken during transplanting, and all such should be trimmed off with pruning shears or a sharp knife, as the bark cannot heal over a rough wound. In order to insure a strong and healthy growth, as well as to cause the plant to become bushy or attain any desired shape, it is well to cut off from each branch one-third to one-half of the previous summer's growth. Fruit trees respond especially to free pruning at the time of transplanting.

The matter of when and how to prune established shrubs and trees depends upon their habits and the purpose for which the operation is performed. Shrubs that bloom early in the spring form their flower-buds during the preceding summer, and they should, therefore, not be pruned until immediately after flowering, if their flowering is to be preserved. Late-blooming shrubs flower on wood of the same season's growth, and should be pruned while dormant, in late winter or very early spring. One-third the previous season's growth may be removed. Shrubs planted in masses should be pruned regularly to induce a dense growth, and to prevent individual plants from becoming too tall, with unsightly, open branches.

The shearing or trimming of hedges should never be done later than July 1, as late cutting allows a tender new growth, which does not have time to ripen properly and consequently is liable to winter-kill.

How to Plant Evergreens

- (1) Dig hole a foot larger and deeper than ball of earth. Provide good, loamy top soil to fill around ball.

Ligustrum, Evergreen Privet—

Lucidum or Shining Leaved Privet is one of the attractive evergreen shrubs. Good size, upright spreading habit, exceptionally fine leathery, dark rich green foliage, miniature lilac-like flowers in June and followed by long upright racemes of dark purplish black berries carried entirely through the winter.

Lucidum, New.....	16-20, .75	24-30	1.00
Lonicera Nitida, Evergreen Bush Honeysuckle.....	18-24		.60
Lonicera Pileata, Prostrate Evergreen, new....	18-24		.60
Nandina Domestica, Heavenly Bamboo.....	12-18		1.00
Nandina Domestica, Heavenly Bamboo, heavy.....	18-24		1.50

A medium size shrub, open graceful habit, evergreen bright, light green foliage in summer, taking on high autumnal colors and fading back to green in spring, valuable for specimens and masses, and charming when intermingled as a foil or contrast with the heavier and more somber leaved evergreens like Laurel or Rhododendron.

Oregon Grape, Mahonia Aquifolia—

Mahonia, Oregon Grape.....	15-18		.75
Mahonia, Oregon Grape.....	18-24		1.00
Mahonia, Oregon Grape.....	24-30		1.50

Oregon Grape is deservedly growing in use not only locally, but east of the mountains where it proves entirely hardy, and in California and elsewhere. We can say here that "if the woods were not full of it, the yards would be" for exotics are too often preferred to worthy natives. Rich in foliage both summer and winter, they flower bright yellow in spring and bear an abundance of attractive bluish-black berries in summer and fall. Remember they are entirely hardy and plant more of them, as well as other Berberis.

Pernettya—Three varieties dwarfs.....	10-15		1.00
Photinia Serrulata, larger size \$1.50.....	12-18		1.00
Pieris (Andromeda) Japanese.....	15-20		2.00
Pyracantha, Evergreen or Fire Thorn, red berries	18-24		1.00
Pyracantha, Lelandi, orange red berries.....	18-24		1.00
Pyracantha, Yunnanensis, spreading habit, red berry	18-24		1.00

A limited number of larger specimens, \$2.00 to \$5.00.

Crataegus Pyracantha, or Fire Thorn, are deservedly popular for their clean upright growth and showy masses of red and orange red berries, carried into late winter.

Rhododendrons, named Hybrids, strong bushy, \$5.00; larger, \$6.00 to \$10.00.

Album Elegans, white	Gen. Grant, deep pink
Chas. Dickens, red	Prince C. de Rohan, early pink
Chas. Bagley, deep red	H. H. Hunnewell, pink
H. W. Sargent, red	Blandyanum, dark pink
Kate Waterer, pink	Lady Claremont, deep pink
Boule de Neige, white	Lady Armstrong, light pink
Mad. Carvalho, white	

Rhododendron, Pink Pearl, finest of all; enormous size clusters, brilliant shell pink; fine foliage; large plants well shaped, with buds, \$10.00, \$12.50 and \$15.00.

Pink Pearl, small plants, few buds.....	5.00
Pink Pearl, medium plants, some buds.....	6.00

Rhododendron Ponticum.....18-24, \$2.50; 24-30, \$3.50

Veronica, Traversi, bushy growth..... .50

Veronica Thymifolia, hardy dwarf, compact, round50

Veronica Cupressoides, Cypress like, medium.. .50

Viburnum Odoratissimum18-20 1.50

Viburnum Odoratissimum, bushy.....24-30 2.50

These are very attractive and showy; bright glossy dark green leathery foliage, showing garnet red in winter with large panicles of fragrant white flowers.

Viburnum Rhitidophyllum.....18-24 1.50

Viburnum Tinus-Laurustinus.....12-18, \$1.00 18-24 1.50

HARMONIOUS SETTING FOR A MODERN BUNGALOW

CONIFERS—EVERGREEN TREES

These are largely used as specimen lawn trees, in pairs to mark walks and entrances, for massing, windbreaks, screens, hedges and as backgrounds for planting flowering shrubs and trees, and of late years for foundation plantings around house or buildings especially at corners. Many associate the word "evergreens" with simply cedar or our native fir trees without realizing the diversity of color and form which can be had in these, ranging from every shade of green and blue foliage to garnet and yellow, golden, silver and white tipped, giving even summer tints to the desolate winter landscape.

Always dug with ball of earth and burlapped. We transplant and root prune them frequently, which practically insures successful transplanting, even of the larger specimens of which we have a limited number of large size specimens from 4 to 8 feet high in *Abies*, *Cicilica*, *Concolor* and *Nordmanniana*; *Lawson's Cypress*; *White*, *Englemann's*, *Norway* and *Colorado Blue Spruces*, and will gladly make special quotation upon any in which you may be interested.

Abies (Firs)—

A class of rapid growing trees of extreme hardiness and thriving in exposed situations. They are of great decorative value but need plenty of space for their best development.

<i>Concolor</i> , <i>Colorado Fir</i>	4-5 ft.	6.00
<i>Nordmanniana</i> , <i>Nordmanns Fir</i>	30-36 in.	4.00
<i>Nordmanniana</i> , <i>Nordmanns Fir</i>	4-5 ft.	6.00
<i>Pinsapo</i> , <i>Spanish, Pin Fir</i>	36-42 in.	5.00
<i>Pinsapo</i> , <i>Spanish, Pin Fir</i> , large specimens,	\$7.50 to \$15.	

PINK PEARL RHODODENDRON

Cedrus (Cedars)—

Among the handsomest of coniferous evergreens. The true cedars are few, many of the name belonging to the Cypresses and Junipers, under which headings we list the best.

Atlantica, Glauca, Blue Atlantic Cedar...	30-36 in.	3.00
Deodora, Himalayan Cedar	2-3 ft.	1.50
Deodora, Himalayan Cedar	3-4 ft.	2.50
Deodora, Himalayan Cedar	4-5 ft.	4.00
Deodora, Himalayan Cedar, larger specimens,	\$8 to \$15.	

Cupressus (Chamaecyparis) Cypress, Port Orford Cedar—

Extremely graceful trees which thrive here, a native of Southern Oregon and Northern California, but with many hybrid varieties. Satisfactory as specimens, in masses, for screens and hedges. Prices are reduced.

Lawsoniana, Lawson Cypress	24-30 in.	1.50
Lawsoniana, Lawson Cypress	30-36 in.	2.00
Lawsoniana, Lawson Cypress	36-48 in.	3.00

PYRAMIDAL ARBOR VITAE IN IRVINGTON, WITH ABELIA RUPESTRIS AT BASE, MAKING ATTRACTIVE BASE PLANTING. COTONEASTER SIMONSI AT RIGHT, WITH MASSES OF RED BERRIES ALL WINTER

DECIDUOUS ORNAMENTAL TREES

The following list of deciduous trees (those that lose their leaves in autumn) embraces a selection for all purposes. For street planting, the Norway Maple probably leads in general suitability, with several other varieties of Maples, Elms, Birches, Horse Chestnuts, Tulips, Mountain Ash and others, all favorites; while for lawn and park planting this varied list covers trees of every characteristic in outline and habit, color of foliage and floral diversity.

These trees have been grown from seedlings in my nursery, have been transplanted each a number of times, according to size, will transplant readily and take vigorous hold and grow well when moved to permanent locations. Prices are for different sized trees, and in all cases good value will be given, according to price charged.

As a street or curb tree, Norway Maple easily holds first choice. Park departments, city foresters and landscape architects unite in giving it first position, as it easily combines the greatest number of desirable qualities, it withstands extremes of drought and excessive moisture, does not lift or break sidewalks or curbs thriving in limited soil, of clean, upright and rather compact growth, not affected by city smoke or gases, and holding its foliage late, then dropping its leaves in a comparatively short space, making labor of cleaning up in the fall of little effort. For a small flowering tree for curb or in lawn Pauls Double Scarlet Hawthorne probably is first favorite.

ALTHEA OR ROSE OF SHARON, MANY COLORS, HARDY,
BLOOMS ALL SUMMER

DECIDUOUS ORNAMENTAL SHRUBS

Flowering shrubs take predominance in all plans for landscape decoration, grounds large or small. Without shrubbery no landscape can be created, but with a careful selection, properly planted, any property can be enhanced in beauty and value. If care is given in selecting, flowers can be had from early spring to late fall. It is my aim to produce everything in flowering shrubbery that is useful, hardy, and worthy of cultivation in this climate. I have been bringing in, trying out and rejecting different shrubs for many years past, adding to my list only those of proven merit in the Pacific Northwest. My stock is large, well grown, every plant being bushy and well furnished in proportion to its height and with exceptionally fine root system. Where no sizes are quoted, prices are for large, well grown shrubs, that will give immediate effect and flower the first year after planting.

Japan Maple (<i>Acer Palmatum</i>)—		Size-in. Each
Cut Leaf Red.....	16-20	\$4.00
Ribbon Leaf Red.....	18-24	3.00
Broad Leaf Red.....	18-24	3.00
Stock quite limited—a few extra size, \$7.50 to \$15.00.		

Althea (<i>Hibiscus Syriacus</i>)—		
Rose of Sharon, <i>Ardens</i> , double, violet.....	24-36	.75
Rose of Sharon, <i>Anemonaeflorus</i> , double, rose.....	24-36	.75
Rose of Sharon, <i>Duchess de Brabant</i> , dbl. red.....	24-36	.75
Rose of Sharon, <i>Jeanne d'Arc</i> , dbl., white....	24-36	.75

Azalea—

Southern Oregon—sturdy plants, \$2.50, large.....	3.50
Evergreen Crimson, medium \$1.50, larger.....	2.50
Kaempferi—Japanese Flame.....	2.00
Viscosa, Flame or Swamp.....	2.00
Altaclarence, yellow—medium, \$2.00; larger.....	3.00
Mollis—pink and salmon colors.....	2.00

Azaleas are the most showy and gorgeous of dwarf and medium growth shrubs, effective when planted with other shrubs, they are even more so when massed. The Southern Oregon is our finest native shrub, growing to large size in time, flowering in large clusters, white or light rose, fragrant in late May. The Evergreen Crimson, which we introduced years ago from Japan, and which we propagate in quantity since the federal embargo stopped importations, is dwarf in habit, light delicate glossy foliage in spring and bright purplish garnet in winter, flowering dazzling crimson in spring. Azalea Alta-Clarence has large foliage, deciduous, taking on wonderful autumnal colors, and masses of bright yellow flowers in spring.

Barberry (Berberis)—

Japan, Thunbergi—extra strong.....	18-24	.75
------------------------------------	-------	-----

Red Leaved Japan Barberry (Thunbergi Atropurpureum)

1.00

Strong two year plants of this new novelty, similar to the well-known hardy green leaved Japanese Barberry but the foliage is a rich, lustrous bronzy red similar to the richest red-leaved Japanese Maples. Does not fade with the summer sun but becomes more brilliant and gorgeous until fall when its foliage changes to vivid orange, scarlet and red, carrying its scarlet red berries through the entire winter.

Wilson's New, splendid, pot grown.....	1.00
--	------

Wilson's New—extra size.....	1.50
------------------------------	------

Buddleia Magnifica, Butterfly Bush.....

36-48 .50

A large, somewhat coarse shrub of upright habit, with long terminal spikes of fragrant, lilac-like flowers for many months in spring and summer. Gives you more flowers for your money than any other shrub. Cut back heavily.

Sweet Shrub, Calycanthus.....

Japanese or Hortensia, blue, pink, white and others.....	strong, \$1.00; extra	1.50
Hortensia Domoti, novelty, semi-double flowers of lavender white, free flowering.		
Strong plants.....		1.00

The Hydrangeas are among the most satisfactory shrubs, the Hortensia type are very showy in late spring and early summer, thrive in shade or on north side of house. Hydrangea Paniculata graniflora "Peegee," either tree form or bush, flowers from mid-July until early fall, first creamy white and fades to deep pink. The Oak-Leaved flowers also, but is especially valuable for its rich autumnal foliage.

Hypericum—

Calycinum, Aaron's Beard, low growing....	.50
Henryii, new, very fine, hardy, bush form	1.00

The Hypericums are nearly evergreen, bear quantities of attractive yellow flowers over a long season in late spring and summer. The new shrub type, Henryii, is a strong four-foot shrub, very free flowering, that will be extensively planted when better known.

Kerria, Japonica Flore Plena or Globe Flower .75

A medium sized shrub with attractive bright green branches and foliage bearing rose like bright double yellow flowers in early spring and moderately throughout the summer. Quite hardy and worthy of extensive planting.

Kolkwitzia Amabilis (Beauty Bush).....18-24 1.00

One of E. H. Wilson's choicest introductions from China, closely related to Abelia and Weigelia, but hardier, more elegant and beautiful. Small tubular pinkish flowers borne profusely giving plant its name Beauty Bush.

Privet (Ligustrum)—

California, Ovalifolium.....	large	.75
Golden, fine for color contrast in foundation, base and mass plantings, two year plants		.75

Voie Lactee, new, very beautiful.....	36-48	1.00
Albatre, new, large flowered, vigorous.....	30-42	1.00
Norma, new, large single flowers in big sprays	30-42	1.00
Glacier, new, comes highly recommended, one of the best novelties. Medium sized shrub; flowers double, rich cream in thick clusters giving appearance of one enormous double flower	24-30	1.50

Veitch's Yellow Cinquefoil—new..... 1.00

Medium sized shrubs with quantities of small flowers resembling strawberry blossoms, quite attractive.

White Kerria, Rhodotyphus..... 30-42 .75

Smooth Sumac, Rhus Glabra..... 36-48 .75

Cut Leaved Sumac, Rhus..... 36-48 1.00

American Smoketree, Rhus Cotinoides..... 18-24 1.00

Spirea (Spiraea)—

The Spireas as a family are easily the first favorites in deciduous shrubs. Anthony Waterer is a dwarfish bushy plant of attractive foliage, flowering reddish pink and fading to light pink, blooming over a long period in late spring and summer. Thunbergi (Japanese) is one of the first white flowers in early spring and one of the last to lose its foliage in December. Ideal for base planting and massing about the house, and Van Houtte's Bridal Wreath with its masses of drooping white flowers in May and June is probably the most extensively planted flowering shrub in America, thriving everywhere. Aitchisoni is very tall, with Mountain Ash like foliage and long spikes of creamy white flowers suitable for tall background and mass planting. Prunifolia Flore Pleno, the true Bridal Wreath is fine in flower and especially good for its rich autumn foliage.

Aitchisoni (Sorbaria) new, tall.....	36-48	.75

CHINESE TRUMPET VINE, WHITE JASMINE

Both in full bloom when photographed August 20. Boston Ivy on chimney

HARDY VINES AND CLIMBERS

The need of vines and creepers for home embellishment is well known, as nothing adds more grace and beauty to the exterior of the house than well-placed and appropriate vines. They cover porches and pergolas, give shade, comfort, perfume and flowers. A porch without a vine always appears desolate and incomplete. Also invaluable for converting offensive looking fences or other unsightly features into things of beauty. In shaded places and beneath old trees where grass will not grow they are often used as a ground cover. On steep slopes and banks they prevent erosion. Churches, depots, factories, outbuildings and all brick and stone edifices can be covered by clinging vines, without trellis work, that will relieve their harshness or lack of architectural beauty and make them things of beauty and joy forever.

Minor, Myrtle	per 100	10.00	.25
Minor Alba.....	per 100	10.00	.25

Wistaria—

Strong-growing, free-flowering climbers. They are hardy and ornamental, but require deep, rich soils and the occasional use of fertilizers, to obtain best results. When well established, a greater abundance of the lovely flowers can be had by rather severe pruning, cutting back the lateral shoots to short spurs and heading back the leaders conveniently, taking care, however, not to over-do it. The grafted Japanese varieties are strongly recommended as superior to the seedlings.

The new Pink Wistaria was grafted with scions of a fine bright pink, long full panicles, from a notable Pasadena garden. We are propagating it locally and have strong thrifty plants for this season.

BASE PLANTING—"TYING THE HOUSE TO THE GROUND"

HEDGE OF EVERGREEN ENGLISH LAUREL E. 17 N. & KNOTT
One of our best hardy evergreens for hedges, foundation or group plantings. Supplied in many sizes, listed page 7

HEDGE PLANTS AND LIVE FENCES

The garden craftsman, if he is a true artist, will let Nature make his fences. Old dead walls and stiff fences are becoming obsolete among people of good taste. Anyone who has seen a rightly kept hedge of Privet, English Laurel, Oregon Grape, Holly or Roses, knows what an important feature it is in making truly beautiful grounds.

For medium-sized formal hedges the Privet is probably the most satisfactory—a good grower, responds readily to the pruning knife; is the most economical in cost, perfectly hardy, and practically an evergreen with us. English Laurel and Lawson's Cypress are also fine for formal sheared hedges. For the high hedges, screens or windbreaks, Norway Spruce, Lawson Cypress and the Hemlock are all desirable; the Norway Spruce especially being sturdy, fast-growing and very handsome. These conifers are best pruned or sheared just as new growth starts in spring.

For the untrimmed hedges—those allowed to grow naturally with but little or no pruning, and which in many localities are now a favorite means of enclosing flower and vegetable gardens, edging terraces and defining roads and walks, covering unsightly defensive barb wire or picket fences—nearly any free-growing shrub can be used, such as Spireas, Van Houttes or Thunbergi, Oregon Grape, Abelia, English Laurel, Laurustinus, Cotoneasters and many others.

Boxwood is increasing in popularity, both the dwarf used for formal borders and edgings, and the tree or bush box for large size permanent hedges. Boxwood is priced on page 3.

BASE PLANTING, WITH IRIS BORDERED POOL

PERENNIALS AND HARDY FLOWERS

Beautiful, hardy plants, that will flower year after year without replanting each spring or fall, are growing into popular favor, and the so-called "old-fashioned garden" is to be found everywhere.

The pleasures from a garden of such flowers planted by itself or especially when grouped in front of or among taller growing, hardy permanent shrubbery, cannot be fully described; caring for them is a change and relaxation. They require no skilled or heavy labor, and repay gloriously the attention bestowed upon them.

The following list covers plants that have proven satisfactory in the Northwest. My aim is to supply the best quality of strong, field-grown stock that will give immediate results.

Fall is the best time for planting Peonies, Japanese Lilies, Iris, etc., though they, and all perennials, can be planted any time until late spring, but best results are to be had from early planting.

Strong, Field Grown Clumps that give satisfaction.

FRUITS

The list of Fruit Trees we offer is carefully selected, for commercial and Home Orchard planting. We aim to grow the best varieties of each species and have eliminated as far as possible the undesirable kinds, for we wish our patrons to feel sure that they can be sure of obtaining varieties of proven merit. We are growers of general nursery stock and not merely dealers. Our soil is a loam that produces an exceptionally good fibrous root system that insures success in transplanting. Grown right, handled properly, sold direct with no agent's commission. The planter gets the benefit.

A fine book for Garden Club and Civic Improvement Club Libraries for membership use and reference.

Price \$3.50 (by mail \$3.65).

Practical Landscape Gardening

Robert Cridland

Are You Planning

—to plant a few trees, shrubs, or hedge?

—to construct a walk, drive, pergola or garden columns; a pretty garden seat or rustic house; fountain, lily pond, swimming pool or bird bath?

Do You Want to Know

—how deep and where to plant the trees, shrubs, porch base plants?

—which flowers to use in your garden and borders?

—how to construct your walks and drives, Summer house, arches and pools?

—how to attain this or that effect, and make your home surroundings beautiful?

Then You Need This Book—Because:

It tells how to plant the 20 ft. plot, as well as the larger estate.

It gives detailed sketches showing where to plant your flower garden, rose, wild or rock garden; lawns, borders, etc.

It has planting plans telling exactly what varieties to plant for best effects.

It gives working plans showing how to construct walks, drives, pergolas, terraces, pools, fountains, garden seats and rustic houses, in fact every detail of your home surroundings.

It contains photographs of actual homes, showing the effect of different plantings, the correct and incorrect method, etc.

It will be the means of beautifying your home grounds far beyond your own expectations.

Get this book. It will save you hundreds of dollars of needless expense and much time and thought, because it is written by a landscape architect of national reputation, who tells facts that are worth money.

Handsomely cloth bound. 276 pages. Contains 91 photographs, 67 sketches and 33 plans, 19 of which are planting plans. Diagrams of plots from 40x100 feet are given. Price: \$2.50 (by mail \$2.65).

Garden Guide The Amateur Gardener's Handbook

The big seedsmen and nurserymen—the most practical men in the country—recognize this book as THE VERY BEST obtainable and this accounts for the thousands of well satisfied buyers. Written by gardening experts expressly for the amateur and non-professional, therefore concise and readily understood.

Covers Every Step from Plowing the Ground to Preserving the Harvest

This book will tell you everything you need to know about your home ground surroundings, your vegetables, fruit and flower garden, trees, shrubs, lawn, etc. Covers in detail:

Growing Tomatoes, Peas, Beans, Cabbage, Celery, Beets, Corn, Onions, and all chief vegetables.

Growing fruits for the small garden or orchard; Apples, Peaches, Grapes, Berries, etc.

Ornamental trees, hedges, gardens and plantings of all kinds.

Constructing hot beds, cold frames, seed boxes, etc.

How to prune and propagate; control insect pests and diseases; all about soils, fertilizers, spraying, tools, etc., and

1001 other live, up-to-date Gardening Facts, simply explained—easily followed

A Guide to Garden Work for Every Month in the Year

360 pages. Cover in four colors. Over 275 teaching illustrations, planting plans and sketches. Price: Paper cover, \$1.00 (by mail \$1.10).
